

Scale Drawings

For each set of vectors choose a suitable scale and ensure lengths and angles are measured carefully and accurately, using a ruler, pencil and protractor.

1. 15 m East and 25 m North.
 2. 100 N right and 80 N down.
 3. 100 km South and 60 km East.
 4. 12 N up, 6 N right, 3 N down and 9 N left.
 5. 100 m South, 50 m West, 30 m North.
